  - HITRUST Authorized External Assessor Council
  - HITRUST Quality Subcommittee
  - Marketing Council
- ✓ Numerous joint presentations and educational workshops
- ✓ Executive-level relationships with HITRUST's leadership team

## WHY HITRUST?

### **HITRUST is the "Gold Standard" of Healthcare Data Security**

Healthcare payers, and an increasing number of health systems and hospitals, are requiring their business associates to become HITRUST certified because the certification demonstrates that the organization has made a dedicated commitment to maintain the greatest level of protection for their customer's healthcare data.

### **Scalable and Cost-Effective**

By including federal and state regulations, standards, and frameworks, and incorporating a risk-based approach, the HITRUST CSF helps organizations address rapidly-evolving information security challenges affecting every healthcare organization no matter the size.

### **Assess Once - Report Many**

Because of its consolidated controls approach, an organization can generate multiple reports addressing legislative, regulatory or best practice frameworks with just one assessment, creating a well-established, robust, and documented security program to present whenever needed.

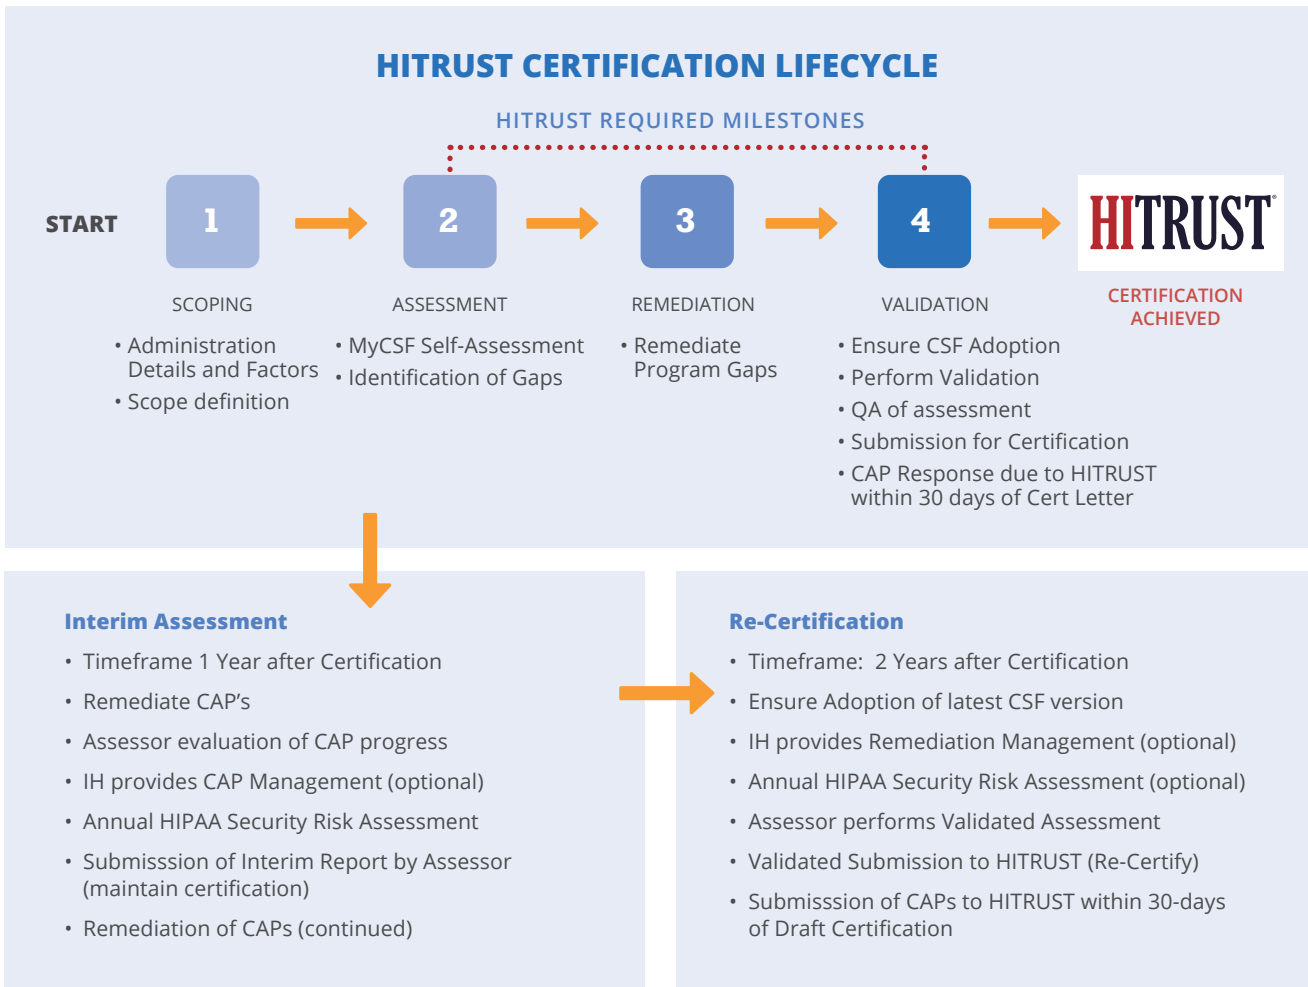

### **Reduce Risk**

To achieve HITRUST certification, organizations undergo rigorous reviews to ensure they meet regulatory compliance and risk standards including NIST, HIPAA, ISO, PCI and state laws.

### **Competitive Advantage**

HITRUST Certification demonstrates that an organization is a leader in security, privacy, and compliance because they have the certification to back it up. This credibility and status in the healthcare industry sets an organization apart.

**Intracorp Health guides you successfully through the entire HITRUST Certification Lifecycle**

### Intraprise Health HITRUST Optimization Services

Intraprise Health's HITRUST Optimization Program complements our HITRUST Assessor Certification Services by providing a set of services purposely designed to fulfill your security team's HITRUST responsibilities. Our Optimization Program consultants work on your behalf as an extension of your team alleviating a significant burden for your organization. Our Assessor services combined with Optimization services deliver an end-to-end HITRUST certification solution.

### HITRUST Optimization Program provides the following services:
