HIPAA Compliance for Microsoft 365 and Teams

DATA SECURITY AND HIPAA COMPLIANCE

CIOs, IT Directors and IT Managers are often deputized as their organization's HIPAA Security Officer. In addition to being responsible for HIPAA security and compliance, these individuals may also be tasked with overseeing a company-wide migration to cloud services, namely migrating to Microsoft 365 and Teams. Organizations in every industry, including many US government agencies, are upgrading to Office 365 to improve their security posture.

Thanks to heavy investments Microsoft has made in security, compliance, and auditing; anyone who utilizes Microsoft 365 and Teams can leverage built-in security and compliance features to combat the constantly evolving cyber-security attacks everyone faces in healthcare and beyond.

SECURE YOUR ORGANIZATION WITH A MICROSOFT 365 AND TEAMS HIPAA AUDIT

Our HIPAA-centered Microsoft Office 365 (M365) audit establishes organizational compliance with administrative and technical safeguards for the protection of electronic health information. The audit includes an analysis based on HIPAA security rule requirements, and implementation planning with in-house IT professionals to remediate compliance gaps.

Our audit will provide administrative teams the necessary information to satisfy HIPAA compliance and cybersecurity due diligence using Microsoft 365 and teams. By capturing responses and supporting documentation, organizations can show due diligent efforts towards meeting US and Global regulatory standards such as HIPAA, GDPR, new consumer privacy laws. Contact us to learn more.

Our Microsoft Audit is comprised of the following activities:

- Our team will access and review the deployment of M365 environment to capture the status, notes, and documentation for each of the audit requirements

- An analysis of compliance with the administrative and technical safeguards of the HIPAA security rule will be performed

- A final report will be provided with a summary of findings, list of recommendations, and detailed analysis of an organizations efforts towards becoming compliant

- Every audit will be performed by a certified assessor
