

# Ransomware Readiness Health Check

We are offering MEDITECH hospitals and health systems a complimentary Ransomware Readiness Health Check to help organizations assess their maturity level of ransomware readiness controls

Leveraging the NIST Cybersecurity Framework and CISA guidance along with recommended best-practices, an Intraprise Health Cybersecurity Expert will assess the maturity level of ransomware readiness controls to determine your ability to prepare and protect your information assets against a ransomware attack.

## What's Included?

### Readiness Assessment

For each NIST-defined **Ransomware Readiness Category**, we will assess against a comprehensive set of controls and capabilities, compare your current maturity level against the NIST-defined target state resulting in a gap score and dashboards for each category.

- Prevention*
- Detection/Analysis*
- Containment*
- Eradication*
- Recover*
- Post-Incident*
- Disaster Recovery Planning (DRP)*
- Business Continuity Planning (BCP)*

### Dashboards

We will provide an executive summary containing a ransomware readiness scorecard of current state vs. target state.

	Current State	Target State	Gap
Prevention	2.36	3.29	0.93
Detection and Analysis	2.33	3.00	0.67
Containment	1.71	2.86	1.14
Eradication	1.75	3.00	1.25
Recovery	2.00	3.00	1.00
Post-Incident	1.80	3.20	1.40
DRP	1.22	3.44	2.22
BCP	1.00	3.62	2.62
<b>Overall:</b>	<b>1.73</b>	<b>3.25</b>	<b>1.52</b>

## ABOUT INTRAPRISE HEALTH

Intraprise Health is an industry leading “tech-enabled” healthcare cybersecurity and risk management services provider. One of the longest tenured HITRUST Assessors in the industry, our broad range of information security, privacy and compliance services include: HITRUST Certification, Third-Party Risk Management, NIST Cybersecurity Framework Adoption, Advisory and Planning Services, Remediation Management, Incident Response and Business Continuity. We deliver HIPAA Security Risk Assessments and Workforce Training via our HIPAA One™ platform. Our next generation BluePrint Protect™ platform, based on the NIST Risk Management Framework, provides intelligent monitoring, workflow management and collaboration capabilities.
