A better way to manage your HIPAA Privacy Compliance

SIMPLIFY YOUR HIPAA PRIVACY AND BREACH RISK ASSESSMENT

The HIPAA Privacy Rule requires organizations to allow patients access to their health information and provide transparency of organizational Privacy Policies. It also requires healthcare organizations to have physical, administrative, and technical safeguards in place to protect the privacy of protected health information (PHI). To meet these requirements, our HIPAA Privacy and Breach Risk Assessment (PBRA) combines Intraprise Health's highly rated privacy and security services with industry-leading HIPAA PBRA Software, HIPAA One®.

INCREASE CAPABILITIES AND SAVE TIME WITHOUT RAISING COSTS

Simple, automated and affordable, our PBRA removes the administrative burden of compliance. Based on NIST Methodologies, our cloud-based software follows OCR Audit Protocol and includes state-specific privacy laws as well as 42 CFR part 2, allowing organizations to prioritize and mitigate Privacy risk.

You can complete your PBRA independently using the HIPAA One software. If you would like assistance, our assessors will work with you in a collaborative, standards-based, and compliance-aware approach.

"We have had a great experience with the HIPAA One software. The Privacy Risk Analysis was completed effortlessly, and we were able to provide a comprehensive report that was well received by our Board. Our staff was easily able to work within the software and understand the requirements."

– Jeffrey N, COO

Advantages of the Intraprise Health HIPAA One® cloud-based software:

- Step-by-step guided approach to privacy compliance

- Up-to-date software including citations for HIPAA and NIST

- Access to our certified Assessors

Enhanced Capabilities for organizations include:

- Automated task reminders

- Send pre-filled questions to your business units and locations

- Manage all PBRAs in one place – no more juggling spreadsheets!

- Calculated risk assignment and prioritization

- Remediation tracking and action history

- Real-time reporting and custom reporting

- Year over year import of prior assessments

## WE PROVIDE THE STRUCTURE, DETAIL, AND CLARITY YOU NEED TO:

- Evaluate HIPAA/HITECH compliance
- Document current state of privacy controls
- Meet the requirements associated with Meaningful Use
- Identify gaps that pose true business risk
- Create a practical remediation roadmap
- Establish a sustainable operating model for information security and privacy

Our Privacy and Breach Risk Assessment will help you:

- Identify threat sources and events
- Identify vulnerabilities
- Determine likelihood of breach occurrence
- Determine magnitude of impact

Many states have specific privacy laws health plans are required to follow. Our software is up to date with all the latest state specific laws and regulations. No need to worry, *we have you covered.*
