

A better way to manage your HIPAA Security Compliance

SIMPLIFY YOUR HIPAA SECURITY RISK ASSESSMENT

Progressive healthcare organizations and business associates perform a Security Risk Assessment (SRA) on an annual basis to maintain HIPAA compliance and fulfill their obligations to PHI security and privacy. Our HIPAA SRA offering combines Intracorp Health's highly rated security services with our industry leading HIPAA One Security Risk Assessment software.

INCREASE CAPABILITIES AND SAVE TIME WITHOUT RAISING COSTS

Simple, automated, and affordable, our SRA removes the administrative burden of compliance. Our cloud-based software follows OCR Audit Protocol and is based on NIST-methodologies to help organizations appropriately respond to and mitigate risks.

Independently complete your SRA using the HIPAA One software. If you would like assistance, our Assessors will work with you in a collaborative, standards-based, and compliance-aware approach. Assess your information security and risk management program and lower your risk.

"Intracorp Health's HIPAA One Security software has made it easy for me to keep up with our risk assessments and stay on top of changes. Their auditors also provided guidance on what we need to do to stay in compliance. We didn't have that before using HIPAA One."

– IT Director, Large Health System

Advantages of the Intracorp Health HIPAA One[®] cloud-based software:

- Step-by-step guided approach to compliance
- Up-to-date software including citations for HIPAA and NIST
- Access to our certified Assessors

Enhanced Capabilities for organizations include:

- Automated task reminders
- Send pre-filled questions to your business units and locations
- Manage all SRAs in one place – no more juggling spreadsheets!
- Calculated risk assignment and prioritization
- Remediation tracking and action history
- Real-time reporting and final reporting
- Year over year import of prior assessments

WE PROVIDE THE STRUCTURE, DETAIL, AND CLARITY YOU NEED TO:

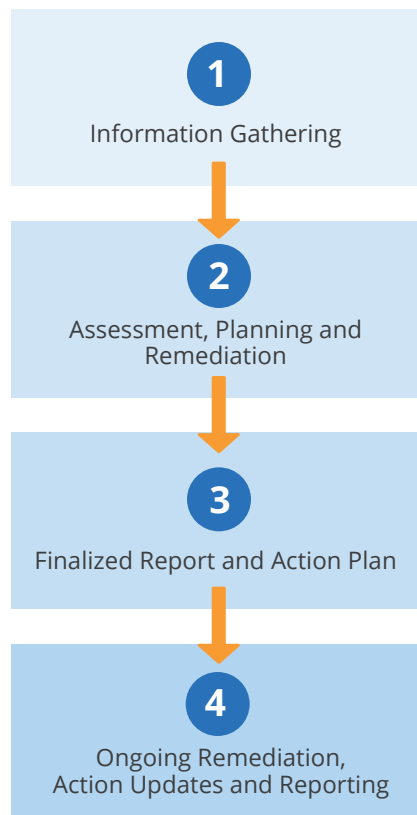

- Evaluate HIPAA/HITECH compliance
- Document current state of security controls
- Meet the requirements associated with Meaningful Use
- Identify gaps that pose true business risk
- Create a practical remediation roadmap
- Establish a sustainable operating model for information security and privacy

Our Security and Privacy Risk Assessment will help you:

- Identify threat sources and events
- Identify vulnerabilities
- Determine likelihood of breach occurrence
- Determine magnitude of impact

Let us do the heavy lifting when it comes to compliance. Make us part of your team to stay up-to-date with regulations, stay compliant, and most importantly, protect your client's information.
